## School of Social Work Approval for electronic publication of Clinical Research Project

Summary of steps for submitting electronic research to St. Catherine University Libraries for inclusion in Sophia, St. Catherine University's institutional repository:

1. Secure final approval and signature of your Clinical Research Project from your research chair.
2. Provide the School of Social Work with a final approved version of your Clinical Research Project. (Note: only one document will be accepted, so complete all edits before submitting to chair for final approval. Further details provided in separate document)
3. There are circumstances in which the work can be withheld from public view for up to one year. This is called an embargo. Situations warranting an embargo include copyright agreements with a potential publisher. You may withhold public release of this project report for one year. There are no permanent embargoes.
4. The MSW Program Manager will forward the approved projects to Technical Services in the St. Catherine University Libraries for inclusion in Sophia.

I am requesting to embargo my paper for one year. \_\_\_\_\_ (*initial here*)
