Meghan,  
Truely, incredible work!! I hop eyou are proud of all that you have accomplished here.  
I'm attaching your paper back here with a few final clean-up comments. I am going to let our admin assistant, Carol Sicard know that she can send you the upload information for Sophia. However, I am trusting you to take care of these final details & not requiring you to send it back to me one last time. Please make sure you make these edits, and clear the document for track changes:

- Formatting on Keywords in Abstract
- Page numbers missing in Theo. Framework
- Figure Size: Make sure you adjust size so that your readers can see the labels. Currently, most of the tables are small & the labels would not be legible if printed. Make appropriate adjustments to the figures for accessibility.

Then you are good to go!!

Sarah
